**Subject:** Re: Fw: website available to public

Hi Linda,

Here is an example of the response I've been giving to some of the email requests I've received recently asking for Dimock related information.

"While we can not release individual private citizen's personal information, such as names and addresses, we have posted publicly available documents related to the Dimock Residential Groundwater Site at [www.epaosc.org/dimock\\_residential\\_groundwater](http://www.epaosc.org/dimock_residential_groundwater). You may also review the Administrative Record File on-line which contains the documents on which EPA based its decision to sample residential wells. That website address is [www.epa.gov/arweb](http://www.epa.gov/arweb)."

These websites have been advertised.
